

25, WILTON PLACE.
London S.W.

March 5/94

My dear Gray

Thank you for your letter
of the 20th with the enclosed cheque in
payment for the 5 copies Genl. which
came safe to hand this morning

As to the 2/4 mentioned as your
having over paid me on a former
acct I find on settling the Liverpool
acct for shipping your box there is
about that amount additional so if
you please we will consider our
accounts as now balanced

We have been making arrangements
for a more regular continuance of
Hottel's boxes - It was always impossible

to keep Petch to time. Now we have
got a young person (Miss Cokerell)
who seems to be doing the plates very
well under Oliver's supervision which
is important for the analyses in which
Petch was sometimes rather weak.
The last five parts have been solely
my charge at a top tone of
between £25 and £30 each part, but
as I now hope to get them published
on fixed days twice a year, and rather
cheaper I hope the work may not
cost me so much. I have provided
however for at least two more
volumes - the first part, vol VIII
will I hope appear on the 1st of May. I
suppose I may send it you by post

at the same rate as before - and now
I intend to send it to the Columbia College
New York?

I am getting sick of Australian Cyperans
I have done about 300 y, and have at
least 50 more to do

Yours very sincerely
George Deutman
